

Firearms Identification Proficiency Test
 Example on how to fill out the answer grid

5 cartridge cases labeled A through E were submitted for intercomparison.

Items A is identified to C
Item B is identified to E
Items A and C are eliminated as having been fired in the same firearm as items B, D and E.
Item D could not be identified or eliminated as having been fired in the same firearm as Items B and E.

Based on these answers, the answer grid would be filled out as follows:

	Test No.		Example	
Item #	B	C	D	E
A	E	ID	E	E
B		E	NC	ID
C			E	E
D				NC
